

Cloudveil Mountain Works started in 1997 by two avid backcountry skiers. Cloudveil was the expression of their love of the outdoors and a drive to build better, more functional apparel. From its earliest days Cloudveil has led outdoor enthusiasts to new appreciation for design innovation.

The culture of innovation continues at Cloudveil today. Vertical Brands was charged with the development and manufacture of tents, backpacks, sleeping bags and gloves. The product is true to the brand. Vertical Brands embraced Cloudveil's passion for product. Cloudveil is driven by its pursuit of inspired design and uncompromising performance.
